

The Easiest to Operate & Most Affordable Audio/Video Control System on the Market!

Easily give your customers what they want with a Sports Bar TV System. No more fumbling around with a stack of remotes, simply click a few buttons and the game or show they want is on the TV they want to watch.

Not only can Sports Bar TV Systems control your video, it can control your audio and lights too. With over 10 years experience in manufacturing we have learned what business owners, employees and customers need in their audio/video control systems and have developed a product that delivers on those needs.

Sports Bar TV System Controllers Can Also Control Multi-TV Walls

- SportsBar-TV.com specializes in the lowest cost iPad/Touch-Panel HDTV integration systems available!
- We offer full turn key "plug & play" systems that even non-technical people can install!

Read what some of our customers have to say

From our Users:

"The mess of wires, remotes, and time loss in going around changing channels was making me nuts! Having Sports Bar TV Systems gives us control of 22 TV's from a single touch panel has saved us so much time, and our guests love the faster response time too! We are on year 3+ of loving our system!"

Dave Dayler, owner, Saloon on Calhoun with Bacon, Brookfield WI

"Sports Bar TV Systems made controlling our audio and video so simple. My new audio and video setup is so much faster and easier to work with than my old setup. I just select the TV, make the change and click. Thanks, guys!"

Jim Opie, Daiquiris Supreme, Inc.

"Sports Bar TV has been our provider of video matrix equipment for over 10 years. Their HDMI over Cat5 system offers many of the same features as the high-end systems out there for about 1/3 the cost and the service after the sale is second to none."

Ted Stanbrough, IT Manager - Lake Bowl /Ten Pin Tap House, Moses Lake, WA

From our Installers:

"When it comes to digital video there are other competitors that talk a good game, but the folks at Sports Bar TV Systems help you make it happen at an affordable price. They have enabled me, coached me and given me the confidence to expand my business into areas that I would never have felt as comfortable in before. They offer a product that is simple to explain to clients but can also be modified to meet the needs of smaller venues and more complex venues alike."

Cordially Ryan Kruse, Select One Security and Communications, LLC

"Sports Bar TV Systems has had a positive affect on my business along with offering great products and support to thousands of viewers in the southwest Arizona area. Even though they are on the other side of the country, distance hasn't been a problem, I have worked closely with them installing their products and have had all my questions answered even after many years of their products being in a location. They stand behind their products!"

Zechariah Black, Ground Zero Total Communications
